

Rules and Regulations for Pool.

1. All the games will conduct according to the general rules and regulations of world pool Billiard Association.
2. It is the player's responsibility to be aware of all rules, regulations and schedules applying to competition. While tournament officials will make every reasonable effort to have such information readily available to all players as appropriate, the ultimate responsibility rests with the player.
3. If a player concedes, he loses the match. For example, if a player unscrews his jointed playing cue stick while the opponent is at the table and during the opponent's decisive rack of a match, it will be considered a concession of the match.
4. If the referee observes that no progress is being made towards a conclusion, he will announce his decision, and each player will have three more turns at the table. Then, if the referee determines that there is still no progress, he will declare a stalemate. If both players agree, they may accept the stalemate without taking their three additional turns. The procedure for a stalemate is specified under the rules for each game.
5. If a player feels that the referee has made an error in judgment, he may ask the referee to reconsider his call or lack of call, but the referee's decision on judgment calls is final. However, if the player feels that the referee is not applying the rules correctly, he may ask for ruling by the designated appeals authority.

*Management decision is the final decision & has the right to make changes if needed
